**Form ADV Part 2A – Firm Brochure**  
952-836-6063

Dated February 28, 2023

This Brochure provides information about the qualifications and business practices of Tilli Wealth Management LLC, “TWM”. If you have any questions about the contents of this Brochure, please contact us at 952-836-6063. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Tilli Wealth Management LLC is registered as an Investment Adviser with the State of Minnesota. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about TWM is available on the SEC’s website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov), which can be found using the firm’s identification number, 314801.

## Item 2: Material Changes

The last annual update of this Brochure was filed on March 30, 2022. Since then, the following changes have been made:

- Item 4: The Advisor has added new services. Please see Items 4 and 5 for additional information.
- Item 5: The Advisor has amended fees for their services. Please see Item 5 for additional information.

From time to time, we may amend this Brochure to reflect changes in our business practices, changes in regulations, and routine annual updates as required by securities regulators. Either this complete Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of Tilli Wealth Management LLC.

## Item 4: Advisory Business

### **Description of Advisory Firm**

Tilli Wealth Management LLC (hereinafter referred to as “TWM”, “we”, “firm”, and “us”) became registered as an Investment Adviser with the State of Minnesota in July of 2021. We were founded in April 2021. Nicholas Tilli is the principal owner of TWM.

### **Types of Advisory Services**

#### **Wealth Management Services**

Wealth Management encompasses investment management services and financial planning. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as risk tolerance and tax considerations.

We primarily advise our Clients regarding investments in stocks, bonds, mutual funds, ETFs, U.S. government and municipal securities, and cash and cash equivalents. We may also provide advice regarding investments held in Client's portfolio at the inception of our advisory relationship and/or other investment types not listed above, at the Client's request.

When we provide investment management services, Clients grant us limited authority to buy and sell securities on a discretionary basis. More information on our trading authority is explained in Item 16 of this Brochure. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

At no additional fee and at Client's election, TWM also provides the Client with a financial plan. A Client will be taken through establishing their goals and values around money. Clients will be required to provide pertinent information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefits, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients will receive a detailed financial plan designed to help achieve Client's stated financial goals and objectives. The plan and the Client's financial situation and goals will be monitored throughout the year.

#### **Investment Management Services**

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to Clients regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation,

growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

### **Hourly or Project-Based Financial Planning Service**

We provide hourly or project-based financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning.

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

**Business Planning:** We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.

**Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.

**College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

**Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

**Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may

provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

**Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

**Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

**Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

**Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

**Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").

**Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state, or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

### **Ongoing Comprehensive Financial Planning**

This service involves working one-on-one with a planner over an extended period of time. By paying a fixed monthly fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon engaging us for ongoing financial planning, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefit, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

### **Tax Return Preparation**

We offer tax preparation services for our clients to assist with the filing of federal and state tax returns for individuals and businesses. We may ask for an explanation or clarification of some items, but we will not audit or otherwise verify client data. The client is responsible for the completeness and accuracy of information used to prepare the returns. We may utilize the services of a third-party accounting, bookkeeping, and tax preparation firm to facilitate the preparation and filing of your tax return and we will work with you and the third party in order to gather the necessary information as part of this service.

We may observe opportunities for tax savings that require planning or changes in the way the client handles some transactions. While an engagement for tax return preparation does not include significant tax planning services, we will share any ideas we have with you and discuss terms for any additional work that may be required to implement those ideas.

### **Client Tailored Services and Client Imposed Restrictions**

We consult with clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the clients' investment and/or planning needs. We ensure that clients' investment and planning recommendations are suitable for their needs, goals, objectives, and risk tolerance. Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to TWM in writing. TWM will notify Clients if they are unable to accommodate any requests.

### **Wrap Fee Programs**

We do not participate in wrap fee programs.

### **Assets Under Management**

TWM currently reports \$13,500,000.00 in discretionary and no non-discretionary Assets Under Management. Assets Under Management were calculated as of December 31, 2022.

## **Item 5: Fees and Compensation**

Please note, unless a Client has received this brochure at least 48 hours prior to signing an investment advisory and/or a Financial Planning Agreement (collectively, "Client Contract"), the Client Contract may be

terminated by the Client within five (5) business days of signing the Client Contract without incurring any fees. How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Client Contract for more detailed information regarding the exact fees you will be paying.

**Wealth Management Services**

For clients with less than \$1,000,000 in assets under management (“AUM”) our standard advisory fee is based on the market value of the assets under management as outlined below and includes an annual fee of \$3,600. For clients with over \$1,000,000 in assets under management, the annual fee is waived, and the fee is based on the market value of the AUM as outlined below.

Assets Under Management	Annual Fee
\$0 - \$2,500,000	0.85%
\$2,500,001 - \$6,000,000	0.70%
\$6,000,001 - \$10,000,000	0.55%
\$10,000,001 - \$50,000,000	0.35%
\$50,000,000 and Above	0.25%

The annual fees are negotiable and are prorated and paid in advance on a quarterly basis. The advisory fee is a blended fee and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart resulting in a combined weighted fee. For example, an account valued at \$3,000,000 would pay an effective fee of 0.775% with the annual fee of \$21,250. The quarterly fee is determined by the following calculation:  $((\$2,500,000 \times 0.85\%) + (\$500,000 \times 0.70\%)) \div 4 = \$6,187.50$ . Fees are negotiable. No increase in the annual fee shall be effective without prior client consent. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are directly debited from Client accounts, or the Client may choose to pay by check. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Upon termination of the account, any unearned fee will be refunded to the Client.

**Investment Services**

Our standard advisory fee is based on the market value of the assets under management as outlined below:

Assets Under Management	Annual Advisory Fee
All Assets Under Management	0.50%

The annual fees are negotiable and are prorated and paid in advance on a quarterly basis. The advisory fee is a straight fee and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart resulting in a combined weighted fee. For example, an account valued at \$2,000,000 would pay an effective fee of 0.50% with the annual fee of \$10,000. The quarterly fee is determined by the following calculation:  $(\$2,000,000 \times 0.50\%) \div 4 = \$2,500$ . Fees are negotiable. No increase in the annual fee shall be effective without prior client consent. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are directly debited from Client accounts, or the Client may choose to pay by check. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Upon termination of the account, any unearned fee will be refunded to the Client.

### **Ongoing Comprehensive Financial Planning**

Ongoing Financial Planning consists of an ongoing fee that is paid monthly, in arrears, at the rate of \$100 - \$500 per month. The fee may be negotiable in certain cases. Fees for this service may be paid by electronic funds transfer or check. This service may be terminated with 30 days' notice. Since fees are paid in arrears, no refund will be needed upon termination of the account.

### **Project-Based Financial Planning Fixed Fee**

Project-Based Financial Planning is offered on a fixed fee basis. The fixed fee will be agreed upon before the start of any work. The fixed fee can range between \$279 and \$10,000, depending on complexity and the needs of the client. The fee is negotiable. If a fixed fee program is chosen, half of the fee is due at the beginning of the process and the remainder is due at completion of work, however, TWM will not bill an amount above \$500.00 more than 6 months in advance. Fees for this service may be paid by electronic funds transfer or check. In the event of early termination any prepaid but unearned fees will be refunded to the Client and any completed deliverables of the project will be provided to the Client and no further fees will be charged.

### **Financial Planning Hourly Fee**

Hourly Financial Planning engagements are offered at an hourly rate of \$279 per hour. The fee may be negotiable in certain cases and is due at the completion of the engagement. In the event of early termination by the Client, any fees for the hours already worked will be due. Fees for this service may be paid by electronic funds transfer or check.

### **Tax Return Preparation**

The fees for Tax Return Preparation will be determined based on the complexity of the return and quality of recordkeeping. The fees may be negotiable in certain cases, will be agreed upon at the start of the engagement and are due at the completion of the engagement. Clients are not required to utilize any third-party products or services that we may recommend, and they can receive similar services from other professionals at a similar or lower cost.

### **Other Types of Fees and Expenses**

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

## Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

## Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals and high net-worth individuals.

Our minimum account size requirement is \$250,000, which may be waived at the discretion of TWM.

## Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

Our primary methods of investment analysis are fundamental, technical, and charting analysis.

**Fundamental analysis** involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

**Technical analysis** involves using chart patterns, momentum, volume, and relative strength in an effort to pick sectors that may outperform market indices. However, there is no assurance of accurate forecasts or that trends will develop in the markets we follow. In the past, there have been periods without discernible trends and similar periods will presumably occur in the future. Even where major trends develop, outside factors like government intervention could potentially shorten them.

Furthermore, one limitation of technical analysis is that it requires price movement data, which can translate into price trends sufficient to dictate a market entry or exit decision. In a trendless or erratic market, a technical method may fail to identify trends requiring action. In addition, technical methods may overreact to minor price movements, establishing positions contrary to overall price trends, which may result in losses. Finally, a technical trading method may underperform other trading methods when fundamental factors dominate price moves within a given market.

**Charting analysis** involves the gathering and processing of price and volume information for a particular security. This price and volume information is analyzed using mathematical equations. The resulting data is then applied to graphing charts, which is used to predict future price movements based on price patterns and trends. Charts may not accurately predict future price movements. Current prices of securities may not reflect all information about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

### Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.

- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

### **Passive Investment Management**

We primarily practice passive investment management. Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

### **Material Risks Involved**

**All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear.** Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

**Market Risk:** Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

**Strategy Risk:** The Adviser's investment strategies and/or investment techniques may not work as intended.

**Small and Medium Cap Company Risk:** Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

**Turnover Risk:** At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution of additional capital gains for tax purposes. These factors may negatively affect the account's performance.

**Limited markets:** Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

**Concentration Risk:** Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

**Interest Rate Risk:** Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

**Legal or Legislative Risk:** Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

**Inflation:** Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

### **Risks Associated with Securities**

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

**Commercial Paper** is, in most cases, an unsecured promissory note that is issued with a maturity of 270 days or less. Being unsecured the risk to the investor is that the issuer may default.

**Common stocks** may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

**Corporate Bonds** are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero-coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

**Bank Obligations** including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

**Municipal Bonds** are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

**Options and other derivatives** carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option.

When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

**Exchange Traded Funds** prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

**Mutual Funds:** When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

## Item 9: Disciplinary Information

### **Criminal or Civil Actions**

TWM and its management have not been involved in any criminal or civil action.

### **Administrative Enforcement Proceedings**

TWM and its management have not been involved in administrative enforcement proceedings.

### **Self-Regulatory Organization Enforcement Proceedings**

TWM and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of TWM or the integrity of its management.

## Item 10: Other Financial Industry Activities and Affiliations

No TWM employee is registered, or has an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No TWM employee is registered, or has an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Nicholas Tilli is contracted out as a financial planner for Origin Financial. There is no relationship that exists between Tilli Wealth Management LLC and Origin Financial. This arrangement may present a material conflict of interest because Nicholas Tilli might be incentivized to refer Origin's clients to Tilli Wealth Management LLC's services. Though this is highly unlikely, Tilli Wealth Management LLC will address this conflict of interest by conducting proper due diligence on any prospective clients and will only accept clients if Tilli Wealth Management LLC's services are truly suitable to the client's needs.

### **Recommendations or Selections of Other Investment Advisers**

TWM does not recommend Clients to TAMPs to manage their accounts.

# Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn

places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc. and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

## **Code of Ethics Description**

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matters shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

## **Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest**

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

## **Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest**

Our firm and its "related persons" may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates' transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

## **Trading Securities At/Around the Same Time as Client's Securities**

From time to time, our firm or its "related persons" may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of TWM to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, TWM will never engage in trading that operates to the client's disadvantage if representatives of TWM buy or sell securities at or around the same time as clients.

## **Item 12: Brokerage Practices**

### **Factors Used to Select Custodians and/or Broker-Dealers**

Tilli Wealth Management LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

In recommending broker-dealers, we have an obligation to seek the "best execution" of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the broker-dealer's services. The factors we consider when evaluating a broker-dealer for best execution include, without limitation, the broker-dealer's:

- Execution capability;
- Commission rate;
- Financial responsibility;
- Responsiveness and customer service;
- Custodian capabilities;
- Research services/ancillary brokerage services provided; and
- Any other factors that we consider relevant.

With this in consideration, our firm recommends Charles Schwab & Co., Inc. ("Schwab"), an independent and unaffiliated SEC registered broker-dealer firm and member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). Although clients may request us to use a broker-dealer of their choosing, we generally recommend that clients open brokerage accounts with Schwab. We are not affiliated with Schwab. The Client will ultimately make the final decision of the Custodian to be used to hold the Client's investments by signing the selected broker-dealer's account opening documentation.

### **1. Research and Other Soft-Dollar Benefits**

Our qualified custodian(s) used for investment management may provide us with certain brokerage and research products and services that qualify as "brokerage or research services" under Section 28(e) of the Securities Exchange Act of 1934 ("Exchange Act"). This is commonly referred to as a "soft dollar" arrangement. These research products and/or services will assist us in our investment decision making process. Such research generally will be used to service all of our client accounts, but brokerage charges paid by the client may be used to pay for research that is not used in managing that specific client's account.

## 2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

## 3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transactions and this may cost Clients money over using a lower-cost custodian.

### The Custodian and Brokers We Use (Charles Schwab)

The custodian and brokers we use maintain custody of your assets that we manage, although we may be deemed to have limited custody of your assets due to our ability to withdraw fees from your account (see Item 15 – Custody, below).

**Your brokerage and custody costs:** For our clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees. Schwab is also compensated by earning interest on the uninvested cash in your account in Schwab's Cash Features Program.

**Products and services available to us from Schwab:** Schwab Advisor Services is Schwab's business serving independent investment advisory firms like us. They provide our clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. Schwab's support services are generally available on an unsolicited basis (we don't have to request them) and at no charge to us. Following is a more detailed description of Schwab's support services:

**Services that benefit you:** Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit you and your account.

**Services that may not directly benefit you:** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to client account data (such as duplicate trade confirmations and account statements)
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- provide pricing and other market data
- facilitate payment of our fees from our clients' accounts
- assist with back-office functions, recordkeeping, and client reporting

**Services that generally benefit only us:** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession

We do not require that you maintain your account with Schwab, based on our interest in receiving Schwab's services that benefit our business and Schwab's payment for services for which we would otherwise have to pay rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Schwab as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services (see "How we select brokers/ custodians") and not Schwab's services that benefit only us.

### **The Custodian and Brokers We Use (Altruist)**

TWM offers investment advisory services through the custodial platform offered by Altruist Financial LLC and its current clearing firm, Apex Clearing Corporation (each unaffiliated SEC-registered broker dealers and FINRA/SIPC members), including by virtue of no commissions on orders executed through them, fully digital account opening process, the variety of available investments, and integration with software tools that can benefit TWM and its clients.

### **Aggregating (Block) Trading for Multiple Client Accounts**

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

## **Item 13: Review of Accounts**

Nicholas Tilli, Founder and CCO of TWM, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. TWM does not provide specific reports to financial planning Clients, other than financial plans.

Client accounts with the Investment Advisory Service will be reviewed regularly on a quarterly basis by Nicholas Tilli, Founder and CCO. The account is reviewed with regards to the Client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

TWM will not provide written reports to Investment Advisory Clients.

## Item 14: Client Referrals and Other Compensation

The Advisor engages independent solicitors to provide client referrals. If a client is referred to us by a solicitor, this practice is disclosed to the client in writing by the solicitor and the Advisor pays the solicitor out of its own funds—specifically, the Advisor generally pays the solicitor a portion of the advisory fees earned for managing the capital of the client or investor that was referred. The use of solicitors is strictly regulated under applicable federal and state law. The Advisor’s policy is to fully comply with the requirements of Rule 206(4)-3, under the Investment Advisers Act of 1940, as amended, and similar state rules, as applicable.

The Advisor engages independent solicitors to provide client referrals. The use of solicitors is strictly regulated under applicable federal and state law. The Advisor’s policy is to fully comply with the requirements of Rule 206(4)-3, under the Investment Advisers Act of 1940, as amended, and similar state rules, as applicable.

The Advisor may receive client referrals from WiserAdvisor. WiserAdvisor is independent of and unaffiliated with the Advisor and there is no employee relationship between them. WiserAdvisor does not supervise the Advisor and has no responsibility for the Advisor’s management of client portfolios or the Advisor’s other advice or services. The Advisor pays WiserAdvisor an on-going fee for each successful client referral. This fee is usually a percentage of the advisory fee that the client pays to the Advisor (“Solicitation Fee”). The Advisor will not charge clients referred through WiserAdvisor any fees or costs higher than its standard fee schedule offered to its clients.

## Item 15: Custody

TWM does not accept custody of Client funds except in the instance of withdrawing Client fees. For Client accounts in which TWM directly debits their advisory fee:

1. TWM will send a copy of its invoice to the custodian at the same time that it sends the Client acopy.
2. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
3. The Client will provide written authorization to TWM, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

## Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, we maintain discretion over Client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the Client.

## Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

## Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

## Item 19: Requirements for State-Registered Advisers

### **Principal Officers**

Nicholas Tilli serves as TWM's sole principal. Information about Nicholas Tilli's education, business background, and outside business activities can be found on his ADV Part 2B, Brochure Supplement attached to this Brochure.

### **Outside Business**

All outside business information, if applicable, of TWM is disclosed in Item 10 of this Brochure.

### **Performance-Based Fees**

Neither TWM nor Nicholas Tilli is compensated by performance-based fees.

**Material Disciplinary Disclosures**

No management person at TWM has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

**Material Relationships That Management Persons Have with Issuers of Securities**

TWM nor Nicholas Tilli have any relationship or arrangement with issuers of securities, in addition to what is described in Item 10.

**Business Continuity Plan**

TWM maintains a written Business Continuity Plan that identifies procedures related to an emergency or significant business disruptions, including the death of the investment adviser or any of its representatives.

- 11/2016 – 04/2019, BerganKDV Wealth Management, LLC, Director of The Private Client Group
- 03/2010 – 10/2016, Fidelity Investments, Financial Consultant

#### Professional Designations, Licensing & Exams

**CFP (Certified Financial Planner)®**: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the “CFP® marks”) are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”).

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real-world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s Standards of Professional Conduct, a set of documents outlining the ethical and practice standards for CFP® professionals. Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the Code of Ethics and other parts of the Standards of Professional Conduct, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the Standards of Professional Conduct.
- The Standards prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board’s enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

### **Item 3: Disciplinary Information**

No management person at Tilli Wealth Management LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

### **Item 4: Other Business Activities**

Nicholas Tilli is contracted out as a financial planner for Origin Financial. There is no relationship that exists between Tilli Wealth Management LLC and Origin Financial. This arrangement may present a material conflict of interest because Nicholas Tilli might be incentivized to refer Origin’s clients to Tilli Wealth Management LLC’s services. Though this is highly unlikely, Tilli Wealth Management LLC will address this conflict of interest by conducting proper due diligence on any prospective clients and will only accept clients if Tilli Wealth Management LLC’s services are truly suitable to the client’s needs.

### **Item 5: Additional Compensation**

Nicholas Tilli is contracted out as a financial planner for Origin Financial. Nicholas Tilli receives a salary from Origin Financial for this service.

### **Item 6: Supervision**

Nicholas Tilli, as Founder and Chief Compliance Officer of TWM, is responsible for supervision. He may be contacted at the phone number on this brochure supplement.

### **Item 7: Requirements for State Registered Advisers**

Nicholas Tilli has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
